

DNNSmart Rating And Comment User Manual

Description

This project can be divided into 2 modules.

1.DNNSmart.RatingAndComment

This module allows users to rate and comment on a page. It's powerful and easy to use.

2.DNNSmart.RatingAndComment.View

This module is used to display comments and it supports very cool display effect. You can configure how many pieces of comments on each page. After that, it will automatically slide out how many pieces of comments from next page.

DNNSmart.RatingAndComment Features

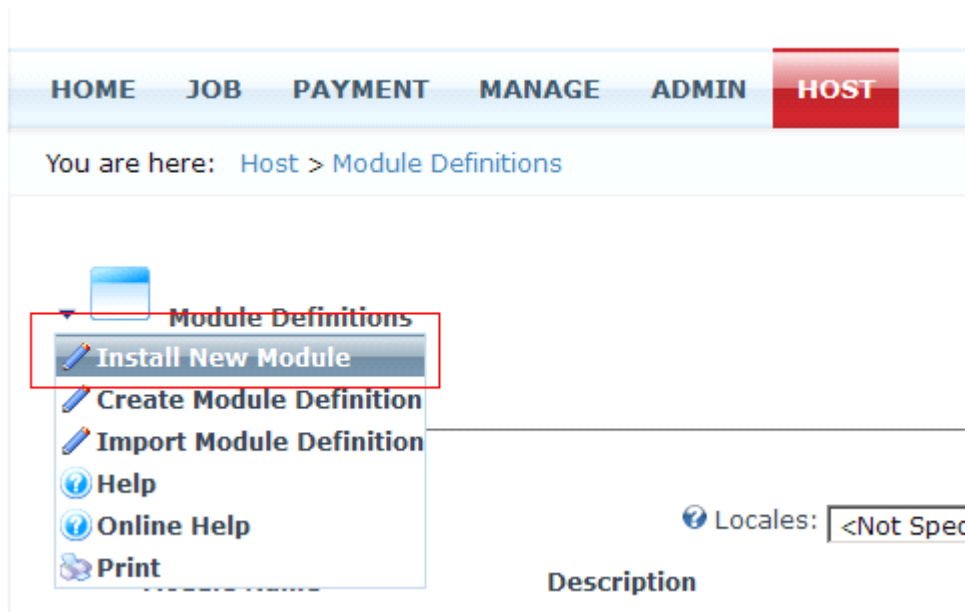

1. After adding this module on different pages, you can add comments on each page.
2. It can support replying to each comment.
3. You can choose rating from 0.5 star to 5 star. It can support half of one star, such as 3.5 star.
4. Average Rating, Total Ratings, Page View Count can display on the page.
5. Users can vote on comment.
6. You can configure page size of paging in module settings.
7. Admin can configure comments posted by Login users or anonymous users.
8. You can configure whether to moderate comments.

DNNSmart.RatingAndComment.View Features

1. You can configure how many pieces of comments to display on each page.
2. You can configure speed of display effect.
3. It can support using template to display comments.

Install and Config

You can enter Host -> Module Definition page and click "Install New Module" button. Please see the screenshot below:

After you finish installation, you can see two modules as following screenshot.

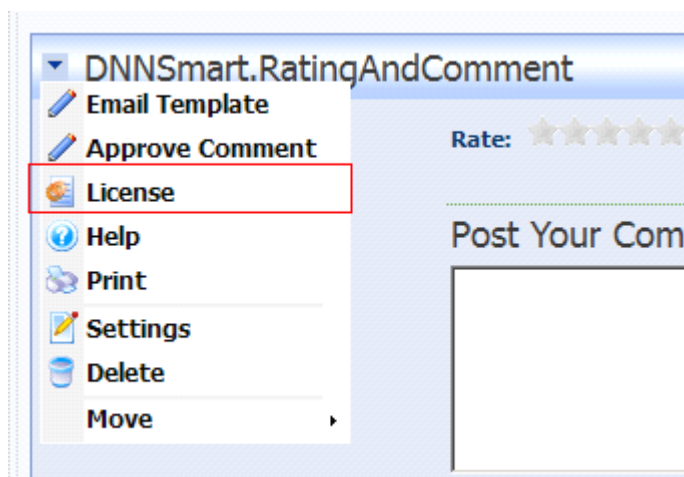

You can add these two modules on the page.

How do you activate the module by using License?

1. Please login as admin account, then go to DNNSmart.Job module. After that, please click "License" as \ screenshot below.

2.

Note:

1.You can send an e-mail to dnnsmart@gmail.com and tell us your invoice ID of purchase together with machine key. After that, we will generate a license for you. If your site is a demo site now and want to transfer it to live site in the future, the license is still valid.

Machine Key: 9A40CA2842003879FBECAD936F64AB8F2D4B36EADNNSMARTJOB0

License: [Activate](#) [Return](#)

Status: **Enterprise** 

3. Please provide your machine key and send an e-mail to tell us. Our email account is dnnsmart@gmail.com

4.After we get your machine key, we will generate License accordingly. When you get License key, you can fill it in above textbox and click "Activate".

5.Finish activating this module.
