

DNNSmart Slide Bar User Manual

Description

This is one simple and useful module. Its main function works like this. After you click one button or image inside the module, at the edge of page, it will draw one area to display content. This effect is suitable for browsing content in mobile devices. In module back-end, you can adjust template.

Install Module

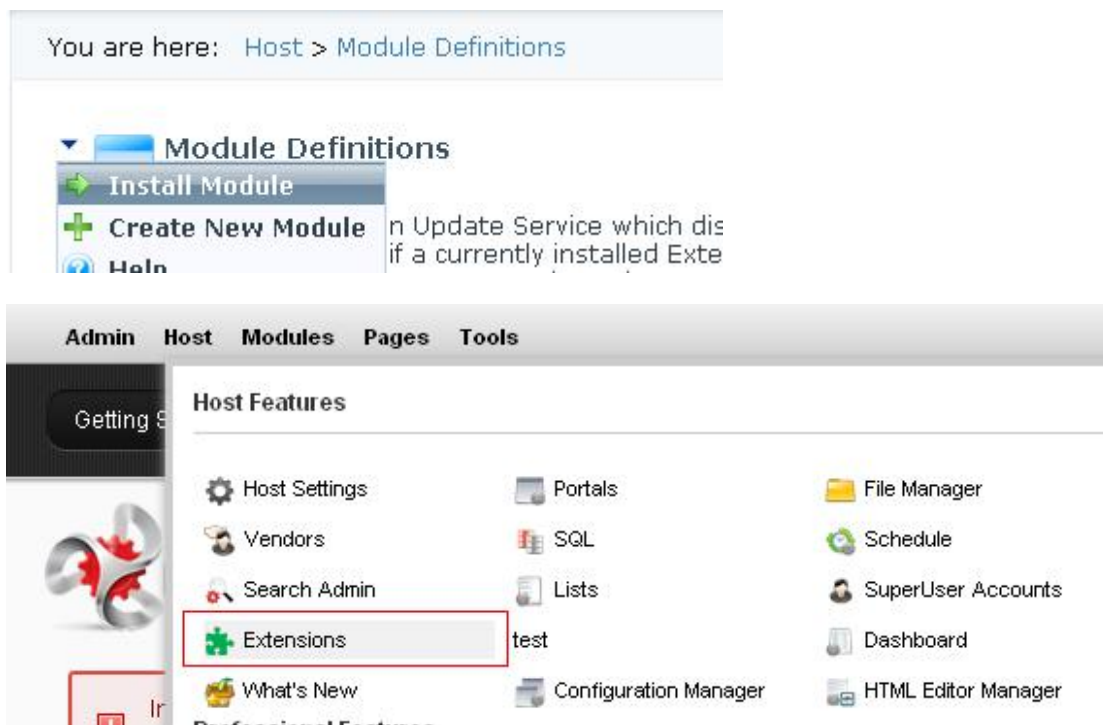

After you download this module, you will get below installation zip file.

DNNSmart.SlideBar_1.0.0_PA.zip

If your site is DNN5.x, please go to this page Host -> Module Definition and click "Install Module" button to upload this module.

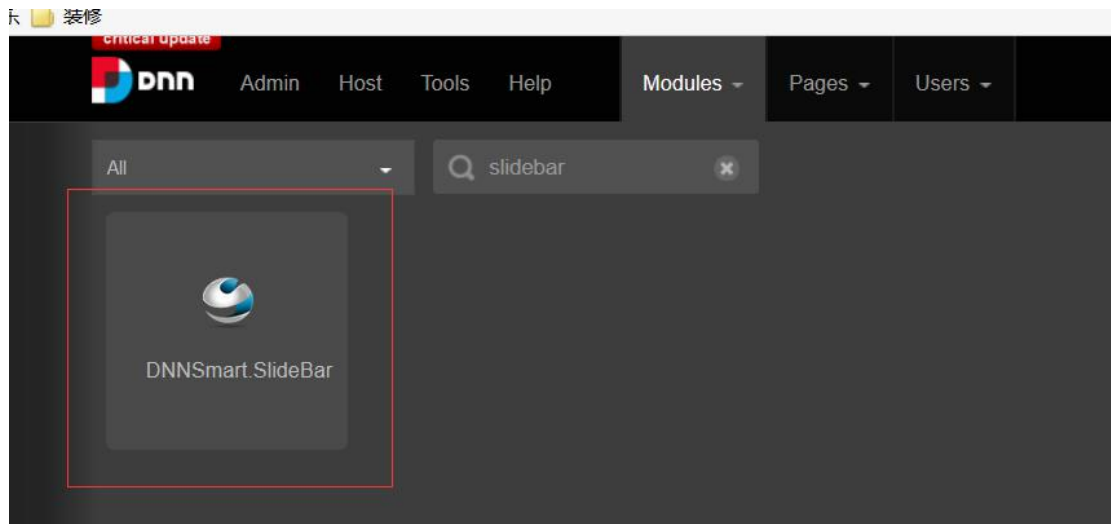

If your site is DNN6.x or DNN7.x, you need to go here Host -> Extensions and click "Install Extension Wizard" button to install.

You can see below screenshot.

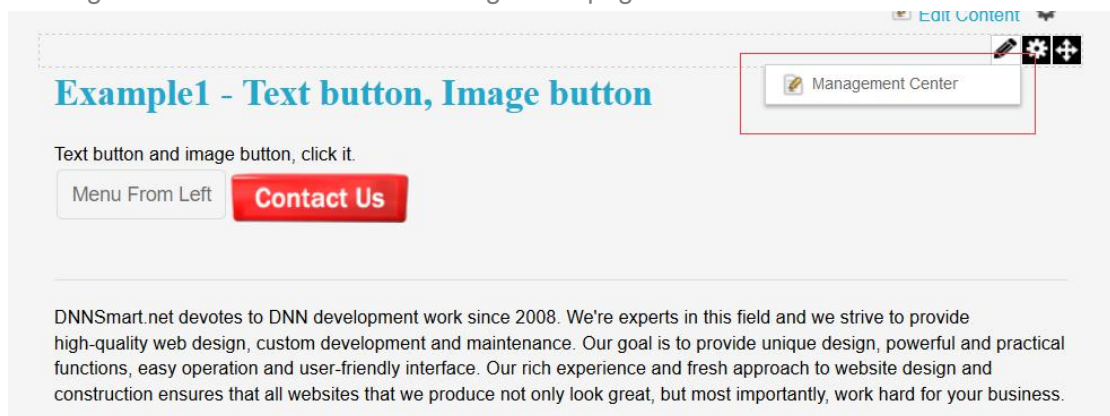

How To Configure

1. After you install module package successfully, you will see DNNSmart.SlideBar modules in module list. Please refer to screenshot below.

2. First of all, please add DNNSmart.SlideBar module on the page. Next, please click “Management Center” and enter management page.

3. After you enter “Management Center” page, you will see on “Add New” button. By clicking it, you can add one button token.
