### Header

```
<HTML>
<HEAD>
  <script src="script.js " type="text/javascript"></script>
  <TITLE> New Document </TITLE>
</HEAD>
<BODY>
  <FORM>
    //This is html content...
  </FORM>
</BODY>
</HTML>
```

### FormTop

```
<HTML>
<HEAD>
  <TITLE> New Document </TITLE>
</HEAD>
<BODY>
  <FORM>
    <script src="script.js " type="text/javascript"></script>
    //This is html content...
  </FORM>
</BODY>
</HTML>
```

## FormBottom

```
<HTML>
  <HEAD>
    <TITLE> New Document </TITLE>
  </HEAD>
  <BODY>
    <FORM>
      //This is html content...
      <script src="script.js " type="text/javascript"></script>
    </FORM>
  </BODY>
</HTML>
```

**Key:** In order to avoid repeating adding, it won't add if the key exists.

6. After you configure the module. On which page the module is located, that page will load your configured script.

The screenshot shows a web interface for managing scripts. At the top, there are two tabs: 'Manage Script' (selected) and 'License'. Below the tabs, there are two buttons: 'Add New' (with a green plus icon) and 'Delete Selected Items' (with a red X icon). To the right, there are two checkboxes: 'Check All' (checked) and 'Uncheck All' (unchecked). Below these elements is a table with the following data:

Type	Position	Content	IsActive	Action	Sort
Text	In Module	in module23	True	  	
File	Form Top	jquery.jrumbler.min.js	False
