

DNNSmart Super Countdown User Manual

Description:

This is a very useful countdown module. It's specially developed for limited-time Super, product publish dates, registration deadlines and events.

Install Module

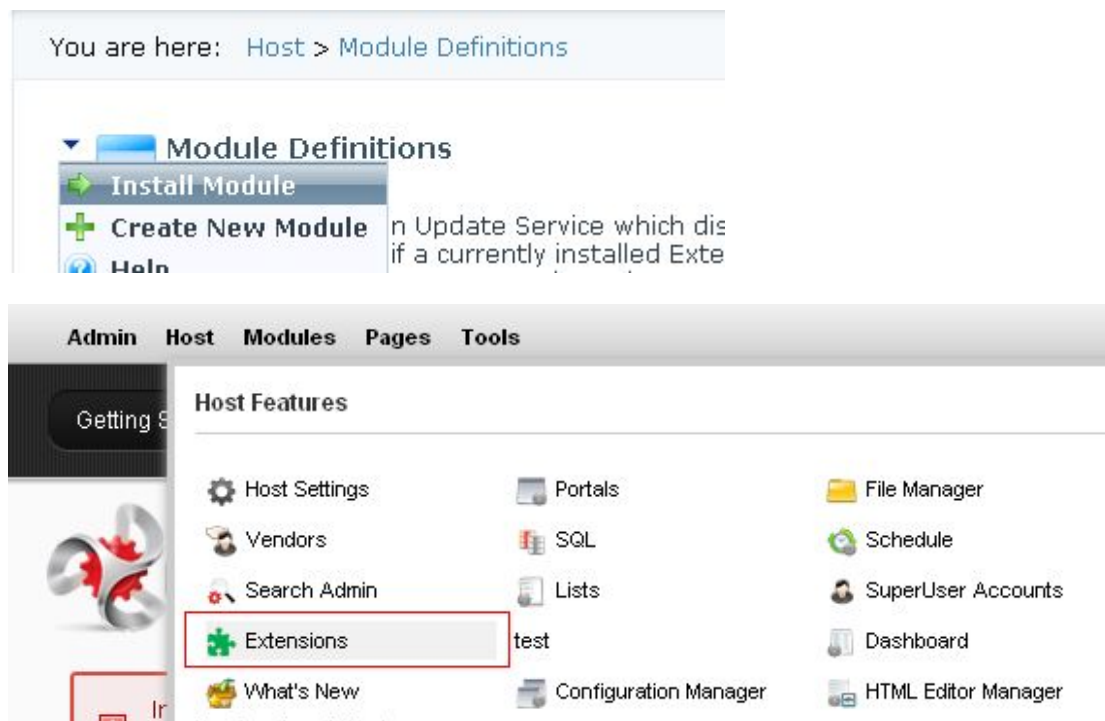

After you download this module, you will get below installation zip file.

DNNSmart.SuperCountdown_2.0.0_PA.zip

If your site is DNN5.x, please go to this page Host -> Module Definition and click "Install Module" button to upload this module.

If your site is DNN6.x or DNN7.x, you need to go here Host -> Extensions and click "Install Extension Wizard" button to install.

You can see below screenshot.

How to configure

1. After you install module package successfully, you can add module to some page.

Distance from the end of the world

2. You can configure on Management Center page.

The screenshot displays the 'Configuration' page with tabs for 'Configuration', 'Template', and 'License'. The 'Global Settings' section includes 'Select Plugin' (Promotion Countdown), 'Current Server Time' (9/18/2015 9:31:12 AM), and 'Target Date' (2015-09-18 18:00:00). The 'Plugin Settings' section shows 'Time Zone' (GMT), display options for years through seconds, 'Count Type' (Countdown), and a 'Theme' selection grid with 10 color-coded options (orange, red, green, yellow, blue, purple, black, white). A 'Style' section contains CSS code for the countdown widget, and a 'Save' button is at the bottom.

Configuration Page

This module integrates multiple countdown plug-in. When you choose different plug-in, they will support different options. Global Settings section is common settings of them. Plugin Settings section is unique settings of each plug-in.

This partial screenshot shows the 'Global Settings' section, including 'Select Plugin' (Promotion Countdown), 'Current Server Time' (9/18/2015 9:31:12 AM), and 'Target Date' (2015-09-18 18:00:00). The 'Plugin Settings' section is partially visible, showing 'Time Zone' (GMT) and the start of the 'Display Years' option.

Template Page

Here, you can adjust template of module front-end and the template which appears after countdown is over.
