

# DNNSmart Super Redirector User Manual

## Description

This is one versatile Redirector, it can redirect according to roles, user, URL referrrer, IP, country, mobile and so on. With this module, you can flexibly and conveniently control website visitors where to go.

## Install Module

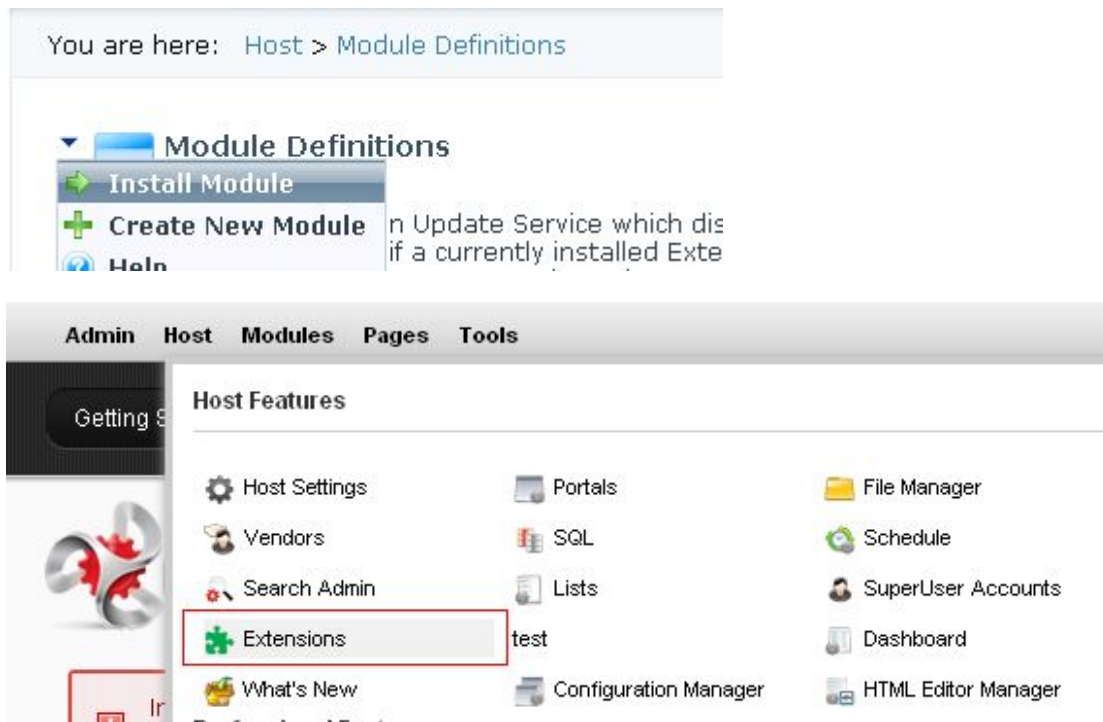

After you download this module, you will get below installation zip file.

DNNSmart.SuperRedirector\_2.0.0\_PA.zip

If your site is DNN4.x or DNN5.x, please go to this page Host -> Module Definition and click "Install Module" button to upload this module.

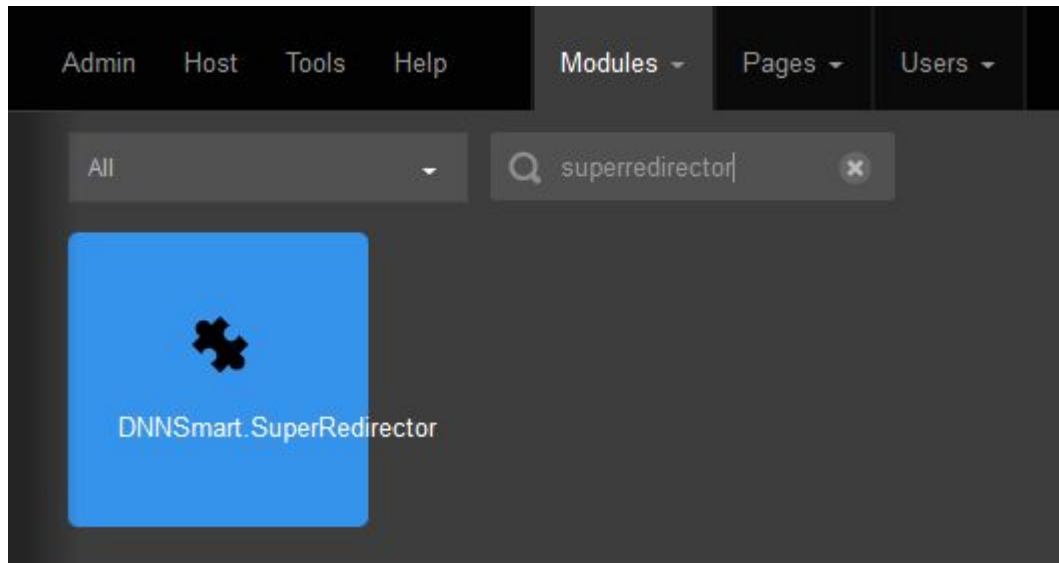

If your site is DNN6.x or DNN7.x, you need to go here Host -> Extensions and click "Install Extension Wizard" button to install.

You can see below screenshot.

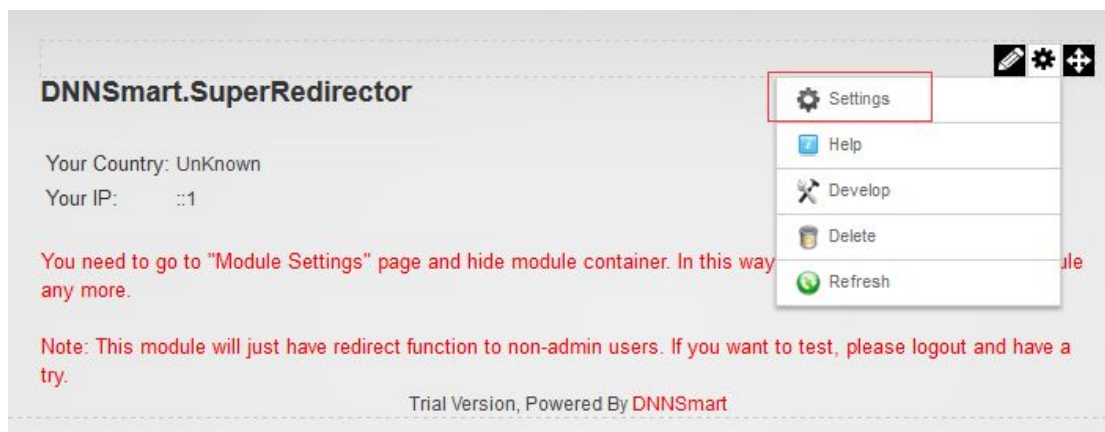

## How To Configure

1. After you install module package successfully, you will see DNNSmart.SuperRedirector modules in module list. Please refer to screenshot below.

2. First of all, please add DNNSmart.SuperRedirector module on the page. Then enter Module Settings page as below.

3. Please configure the module to be visible by all users and also hide module container. Please refer to two screenshots below. The purpose of this configuration is to let module work for anonymous users and they can't see module title.

If you want to test if the module could work, you can visit the page where the module is located as anonymous user or common registered user.

Please don't use admin account of super account to test as this module won't work for them.

4. After you finish configuration work, please enter Management Center -> Manage Rule page to add corresponding rules.

The screenshot shows the 'Management Center' interface for 'DNNSmart.SuperRedirector'. It includes a 'Management Center' button, user information (Country: UnKnown, IP: ::1), and a red note: 'You need to go to "Module Settings" page and hide module container. In this way, non-admin won't see this module any more.' Another red note states: 'Note: This module will just have redirect function to non-admin users. If you want to test, please logout and have a try.' The footer indicates 'Trial Version, Powered By DNNSmart'.

The screenshot shows the 'Manage Rule' page for 'DNNSmart.SuperRedirector 01.00.03'. It features a 'Back' button and a navigation menu with 'Manage Rule', 'Redirect Report', 'Option Settings', and 'Import & Export Rules'. A note reads: 'Note: The smaller rule of order is, the more priority execution has.' Below the note are buttons for 'Add New Rule' and 'Bulk Delete'. A red note at the bottom says: 'There is no rule, please click "Add New Rule" button to add.'

5. On Edit Rule page, there are many kinds of redirect method for you to choose. Regarding usage of each redirect method, you can see detail instruction on the interface.

The screenshot shows the 'EditRule' configuration page. It includes a 'Redirect Type' section with radio buttons for 'Role', 'Specific User', 'Url Referrer', 'IP Range', 'Country', 'Mobile', and 'Url'. The 'Is Contain' checkbox is checked, with a note: 'Note: When you check this option, it means that website will redirect if it accords with this if it doesn't accord with this rule.' The 'Roles' dropdown is set to 'Administrators'. The 'Redirect Url' field contains 'http://'. The 'Is Active' checkbox is checked, and the 'Order' field is set to '10'. At the bottom, there are 'Save' and 'Cancel' buttons.

6. After you configure the module, users will redirect according to your configured condition when they visit the page that Super Redirector module is on.

RedirectType	Value	RedirectUri	IsContain	IsActive	Order	Action
Role	Membership	http://www.dnnsmart.net	True	True	10	<input type="checkbox"/>
Specific User	JoshuaBright	http://www.dnnsmart.net	True	True	20	<input type="checkbox"/>
Uri Referrer	www.dnnsmart.net	http://www.dnnsmart.net	True	True	30	<input type="checkbox"/>
IP Range	211.88.*.*	http://www.dnnsmart.net	True	True	40	<input type="checkbox"/>
Country	CN	http://www.dnnsmart.net	False	True	50	<input type="checkbox"/>
Mobile	mobile	http://www.dnnsmart.net	True	True	60	<input type="checkbox"/>
Uri	dnnsmart	http://www.dnnsmart.net	True	True	70	<input type="checkbox"/>

## Manage Rule

In this area, admin can add, delete and edit rules.

RedirectType	Value	RedirectUri	IsContain	IsActive	Order	Action
Role	Membership	http://www.dnnsmart.net	True	True	10	<input type="checkbox"/>
Specific User	JoshuaBright	http://www.dnnsmart.net	True	True	20	<input type="checkbox"/>
Uri Referrer	www.dnnsmart.net	http://www.dnnsmart.net	True	True	30	<input type="checkbox"/>
IP Range	211.88.*.*	http://www.dnnsmart.net	True	True	40	<input type="checkbox"/>
Country	CN	http://www.dnnsmart.net	False	True	50	<input type="checkbox"/>
Mobile	mobile	http://www.dnnsmart.net	True	True	60	<input type="checkbox"/>
Uri	dnnsmart	http://www.dnnsmart.net	True	True	70	<input type="checkbox"/>

## Redirect Report

In this area, admin can view redirect record of users. Whether users redirect successfully or not, you can export record as csv file here.
